Overview of auction procedures

Registration

We recommend that you register with us as early as possible if you wish to bid in our auctions and have never previously registered. This may be done via our website (www.auctions.thecoincabinet.com > Sign Up) or by email to contact@thecoincabinet.com. Alternatively, you can also register through www.the-saleroom.com. The registration process may include references, security checks, or a bidding limit placed for first time bidders. The day of the auction is an extremely busy time, and we cannot guarantee that registrations on the day will be accepted.

Bidding

Please read our full terms and conditions at [General Conditions of Sale | The Coin Cabinet Auctions](#)

Pre-Bidding via www.auctions.thecoincabinet.com

We list our sales between 1-3 weeks before the live sale. During this period, registered bidders can place advance bids, known as pre-bids. Pre-bidding is an effective method if you wish to leave bids in advance of the live sale. You can also set a maximum pre-bid that can be higher than the current high bid. Current high bids on lots can be seen by others online, but your maximum bid cannot be seen by others, nor will your bidder identity. Your pre-bidding maximum will automatically bid against other incoming bids incrementally until the maximum is reached. You will receive an email notification should you be outbid. You may raise your maximum bid, but you cannot cancel a bid. Please email us at contact@thecoincabinet.com or call 020 3808 5855 should you wish to lower your maximum bid.

Live Bidding via www.auctions.thecoincabinet.com or www.the-saleroom.com

You can bid live from your computer or mobile device through our app (available for download on Android or iOS). We provide optional live video and/or audio feed of the auctioneer, allowing the online bidder to participate as if on the auction floor.

Bidding Priority

Please note that in the event of tied top bids, priority is given to the first bid received. We prioritise pre-bidding top bids over live bidding. It is therefore possible that a lot can sell at your live bid to a pre-bidder. To avoid confusion, the auctioneer will stress to the live bidder that they tied the pre-bidder, whose bid will take priority, and to bid again if they wish.

Saleroom Notices

Should the description of a lot need to be amended after the publication of this catalogue, the amendments will appear automatically on the website. Any pre-bidders on amended lots will be notified of the amendment. The auctioneer will announce any saleroom notices at the start of the auction and refer to any notices at the time any affected lot is offered for sale.

Images

The Coin Cabinet website features high-quality colour images of every lot in this auction. Further additional photographs may be requested by email. Please note that the images online and in this catalogue are not to scale.

Buyers' Premium (BP)

The BP for this sale is 18% of the Hammer Price (+ VAT where applicable).

Prices Realised

The hammer prices of lots sold at The Coin Cabinet auctions are posted online in real time.

Payment

You will receive your invoice the next working day after auction. Payment is to be made within 14 days by bank transfer.

UNITED KINGDOM. Victoria, 1837-1901.

Silver crown, 1847. Royal Mint. Proof ("undecimo" on edge).

The so called 'Gothic' crown was never intended for circulation and sold to the public only through official agents, at the time being Hunt and Roskell. It was an immediate success and has always been in high demand, generally held as one of the most beautiful designs British coinage has to offer.

Crowned bust of Queen Victoria facing left, dress decorated with roses, thistles and shamrocks; around in lower case Gothic script, Victoria dei gratia britanniar. reg: f: d Design by William Wyon. / Crowned cruciform shields, Star of the Garter at centre, floral emblems and gothic arches in angles; latin legend in lower case Gothic script reads 'tueatur unita deus anno dom mdcccxlvii' (translation, May God guard these United Kingdoms in the Year of Our Lord 1847). UNITED KINGDOM. Victoria, 1837-1901.

Silver medal, 1887. Royal Mint. BHM-3219.

Official medal for the Golden Jubilee of Queen Victoria on 20 June 1887, by L. C. Wyon after Joseph Edgar Boehm and Frederic Leighton. With little experience in the designing for small surfaces, Boehm's 'Jubilee Head' coin design had been heavily criticised and unpopular with the public. The larger format of the medal gave him greater space and was an improvement on the effigy. Leighton's late delivery of his design for the reverse led to delays, and the medal was not issued until 18 July 1887, nearly a month after Jubilee day.

The noble was the first English gold coin produced in major quantity, introduced during the second coinage of King Edward III. Before the noble, the gold penny and the florin were minted during the reign of King Henry III and the beginning of Edward III's. While these predecessors saw little circulation, the derivatives of the noble--the half noble and quarter noble here--were produced in quantity and were very popular. Nobles and their derivatives were struck throughout Henry VI's first reign (1422-61), but a shortage of gold resulted in fewer coins being struck.

Coenwulf was the last great King of Mercia. with his brother Cuthred as the King of Kent. Coenwulf entered a Treaty with Beorhtric of Wessex in 799 Wessex being the junior partner. Around 800 Coenwulf enforced vassalage of East Anglia. As a result he was styling himself as Emperor like Charlemagne, the first use of this title by a British King. Coenwulf died in 821 resulting in his overlordship of southern England to collapse within two years of his passing.

William I: commonly known as 'the Conqueror' or, sometimes, 'the Bastard'. After his victory over Harold Godwinson at the Battle of Hastings and his suppression of subsequent English revolts, William I took over an extensive network of Anglo-Saxon mints, including one operating from Winchcombe: today a market town near Cheltenham in the Cotswolds. 17 coin types were struck at Winchcombe from the reign of king Edgar the Peaceful (959-975) through to the end of William I's reign in 1087. This example is of the last type struck at this provincial mint by the moneyer Goldwine, late in the Conqueror's reign.

Silver 1/2 dollar= 50 cents, 1893. Philadelphia.

This coin was produced for the World's Columbian Exposition that took place between the 1st of May to October 30, 1893, in Chicago, Illinois, which celebrated the 400th anniversary of the arrival of Columbus to America.

According to Tom DeLorey Coinage, May 2016, p. 9, the Columbian Exposition half-dollar "came about when the organization putting on the World's Fair requested a grant from the U.S. Treasury of \$5 million to help build the fairgrounds so it could open." The Treasury, however, gave "only \$2.5 million due to the prevailing hard economic times." DeLorey goes on to say that someone "connected with the Fair Authority got the brilliant idea that if the Treasury would provide the \$2.5 million in the form of five million commemorative half dollars," then the Fair would need only "to sell the coins for a dollar each" in order to obtain the extra \$2.5 million dollars needed.

Because of hard economic times, however, "only a few hundred thousand were sold at the premium, the rest were either released into circulation at face value or melted."
