

THE COIN CABINET

Auction 65 - Historic British Coins

LIVE BIDDING BEGINS: MAY 31, 2022 12:00 PM BST

Overview of auction procedures

Registration

We recommend that you register with us as early as possible if you wish to bid in our auctions and have never previously registered. This may be done via our website (www.auctions.thecoincabinet.com > Sign Up) or by email to contact@thecoincabinet.com. Alternatively, you can also register through www.the-saleroom.com. The registration process may include references, security checks, or a bidding limit placed for first time bidders. The day of the auction is an extremely busy time, and we cannot guarantee that registrations on the day will be accepted.

Bidding

Please read our full terms and conditions at [General Conditions of Sale | The Coin Cabinet Auctions](#)

Pre-Bidding via www.auctions.thecoincabinet.com

We list our sales between 1-3 weeks before the live sale. During this period, registered bidders can place advance bids, known as pre-bids. Pre-bidding is an effective method if you wish to leave bids in advance of the live sale. You can also set a maximum pre-bid that can be higher than the current high bid. Current high bids on lots can be seen by others online, but your maximum bid cannot be seen by others, nor will your bidder identity. Your pre-bidding maximum will automatically bid against other incoming bids incrementally until the maximum is reached. You will receive an email notification should you be outbid. You may raise your maximum bid, but you cannot cancel a bid. Please email us at contact@thecoincabinet.com or call **020 3808 5855** should you wish to lower your maximum bid.

Live Bidding via www.auctions.thecoincabinet.com or www.the-saleroom.com

You can bid live from your computer or mobile device through our app (available for download on Android or iOS). We provide optional live video and/or audio feed of the auctioneer, allowing the online bidder to participate as if on the auction floor.

Bidding Priority

Please note that in the event of tied top bids, priority is given to the first bid received. We prioritise pre-bidding top bids over live bidding. It is therefore possible that a lot can sell at your live bid to a pre-bidder. To avoid confusion, the auctioneer will stress to the live bidder that they tied the pre-bidder, whose bid will take priority, and to bid again if they wish.

Saleroom Notices

Should the description of a lot need to be amended after the publication of this catalogue, the amendments will appear automatically on the website. Any pre-bidders on amended lots will be notified of the amendment. The auctioneer will announce any saleroom notices at the start of the auction and refer to any notices at the time any affected lot is offered for sale.

Images

The Coin Cabinet website features high-quality colour images of every lot in this auction. Further additional photographs may be requested by email. Please note that the images online and in this catalogue are not to scale.

Buyers' Premium (BP)

The BP for this sale is 6% of the Hammer Price (+ VAT where applicable).

Prices Realised

The hammer prices of lots sold at The Coin Cabinet auctions are posted online in real time.

Payment

You will receive your invoice the next working day after auction. Payment is to be made within 14 days by bank transfer.

Please contact us for any questions at [020 3808 5855](tel:02038085855) or contact@thecoincabinet.com

24 **1887 Gold Half-Sovereign Imperfect J DISH L508 PCGS MS63 #42501320 (AGW=0.1176 oz.)**

UNITED KINGDOM. Victoria, 1837-1901.

Gold half-sovereign, 1887. London. Imperfect J DISH L508.

The issues the mint encountered with the Jubilee coins are well documented and were exacerbated by the pressure for the coins to be ready for the Queen's Golden Jubilee on 20 June 1887. Records show that 1,771,425 half-sovereigns were struck in 1887, but only 871,770, less than 50% of the total, were fit for circulation. To improve metal flow silver was included in the alloy, which makes all 1887 London Jubilee head half-sovereigns stand out for their lighter colour. Although this variety is the most common of the 1887 Jubilee head half sovereigns, it is highly sought after due to the fascinating story surrounding the series, recently told by David Iverson and Steve Hill in their publication 'The Jubilee Head Gold Half Sovereign 1887-1893' (Sovereign Rarities, 2019).

Crowned and veiled Jubilee bust facing left; JEB on truncation, imperfect J; inscription: VICTORIA DEI GRATIA BRIT: REGINA F: D: / High, crowned and embellished shield-of-arms; date in exergue; BRITANNIARUM REGINA FID: DEF:.

In secure plastic holder, graded PCGS MS63, certification number 42501320.

170.-

26 **1887 Gold Half-Sovereign Hooked J DISH L503 Good very fine (AGW=0.1176 oz.)**

UNITED KINGDOM. Victoria, 1837-1901.

Gold half-sovereign, 1887. London. Hooked J DISH L503.

The issues the mint encountered with the Jubilee coins are well documented and were exacerbated by the pressure for the coins to be ready for the Queen's Golden Jubilee on 20 June 1887. Records show that 1,771,425 half-sovereigns were struck in 1887, but only 871,770, less than 50% of the total, were fit for circulation. The Jubilee head series—in all denominations—provides collectors with a unique insight into the workings of the Mint. Due to time restraints the Jubilee head designer Joseph Edgar Boehm's initials JEB were individually punched onto six master dies for each mint (London, Sydney and Melbourne) by Royal Mint employee William Poplett, creating

170.-

no less than 23 varieties of 1887 Jubilee Head half sovereigns. All 1887 half sovereigns with hooked J are extremely rare. In their publication 'The Jubilee Head Gold Half Sovereign 1887-1893' (Sovereign Rarities, 2019), David Iverson and Steve Hill estimate that the average output from each pair of dies was only 3,397 coins, indeed making this one of the greatest half sovereign rarities.

Crowned and veiled Jubilee bust facing left; small, spread JEB on truncation, hooked J, second stop higher than first, third stop at junction of truncation and field; inscription: VICTORIA DEI GRATIA BRIT: REGINA F: D.: / High, crowned and embellished shield-of-arms; date in exergue; BRITANNIARUM REGINA FID: DEF:.

Good very fine.

29 **1890 Gold Half-Sovereign With JEB Low shield DISH L512 Good very fine (AGW=0.1176 oz.)**

UNITED KINGDOM. Victoria, 1837-1901.

Gold half-sovereign, 1890. London. With JEB Low shield DISH L512.

No half sovereigns were struck in 1888 and 1889 in an attempt to steer the public towards greater use of silver coins, which were less prone to wear than the half-sovereign and so more cost-effective. The double-florin (4 shillings) piece was produced 1887-1890 to offset for the half-sovereign shortage, but weighs 22.6 grams and measures 36 mm. The public was not happy about carrying around the equivalent value of the widely used half-sovereign (10 shillings) in silver coins. Production of half sovereigns recommenced in 1890 with 2,266,023 coins.

The issues the mint encountered with the Jubilee coins are well documented and were exacerbated by the pressure for the coins to be ready for the Queen's Golden Jubilee on 20 June 1887. Due to time restraints the Jubilee head sculptor Joseph Edgar Boehm's initials JEB were individually punched onto the master dies, resulting in three categories of JEB types—Imperfect J, hooked J (six unique dies) and no JEB. It is unclear in which order coins of these categories would have been produced and why at some point, presumably after 1887, it was decided to discontinue the use of dies with the JEB initials. After 1887, JEB initials are all of the Imperfect J type and become increasingly rarer as the years pass. This in our opinion indicates that coins struck after 1887 bearing the JEB initials would relate to the use of old dies from 1887 production runs, in the same way as the use of high shield dies.

To improve metal flow, the reverse was redesigned at some point after 1887 and the shield moved slightly lower (sometimes called wide date as the lower part of the shield pushed the date further apart). In the same way as presumed with the use of JEB dies after 1887, the Mint continued using the high shield dies from 1887 production runs until 1892, the later ones being very rare (1891 is ultra-rare).

Crowned and veiled Jubilee bust facing left; JEB on truncation, imperfect J; inscription: VICTORIA DEI GRATIA BRIT: REGINA F: D: / Lower, crowned and embellished shield-of-arms; wide date in exergue; BRITANNIARUM REGINA FID: DEF:.

Good very fine.

30 **1891 Gold Half-Sovereign No JEB High shield DISH Unrecorded (AGW=0.1176 oz.)**

UNITED KINGDOM. Victoria, 1837-1901.

Gold half-sovereign, 1891. London. No JEB High shield DISH Unrecorded. After a break in half sovereign production 1888-1889, this recommenced in 1890 and continued in 1891 but at less than half the mintage, 1,087,884 in 1891.

The reverse shield was lowered at some point after 1887 to improve metal flow. 1890 dated coins have a majority of the new lower shield. As the old high shield dies wear out and are replaced with the new lower shield dies, coins with the high shield become progressively rarer. According to David Iverson and Steve Hill in their publication 'The Jubilee Gold Half Sovereign 1887-1893' (Sovereign Rarities, 2019), all coins struck in 1891 are without JEB initials and with the lower shield type. Having gone through thousands of coins in various collections around the world, they did not award a reference number to this type in the way they did with other coins that were presumed to exist, however the author did note that 'as ever though, just a word of caution, as one should always be aware of the chances of coming across the unexpected, and perhaps something different to the known variety turning up one day.' In 1892, with production at 13.7 million coins, a small number of high shield coins along with coins with JEB (Imperfect J only) exist, so old dies from 1887 production runs were used in 1892 to cover production gaps when necessary. However, with the relatively low mintage of 1891 the use of old dies seems unnecessary.

170.-

PCGS has listed four 1891 half-sovereigns as being of the High shield variety, however PCGS has notoriously graded a large number of both high and low shield coins incorrectly and closer inspection of these four so-called high shields show that all with an image are in fact incorrectly graded low shield coins.

Spink and Marsh have also not given any indication of rarity to this variety, but it seems to be one which has not been properly researched until Iverson and Hill's publication. To add to their research, we have also gone through many thousands of coins in the last several years and only now come across this one coin. There may be others out there—and we kindly ask everyone who own an 1891 Jubilee head half-sovereign to check!—but in any case this is definitely a great rarity, possibly an R7 by Marsh's standards.

Crowned and veiled Jubilee bust facing left; no JEB on truncation; inscription: VICTORIA DEI GRATIA BRIT: REGINA F: D: / High, crowned and embellished shield-of-arms; date in exergue; BRITANNIARUM REGINA FID: DEF:.

31 **1891 Gold Half-Sovereign No JEB Low shield DISH L513 Good very fine (AGW=0.1176 oz.)**

UNITED KINGDOM. Victoria, 1837-1901.

Gold half-sovereign, 1891. London. No JEB Low shield DISH L513.

After a break in half sovereign production 1888-1889, this recommenced in 1890 and continued in 1891 but at less than half the mintage, 1,087,884 in 1891. Until recently, all of these were presumed to be without JEB and of the lower shield type, however the high shield type has since been confirmed to exist.

Crowned and veiled Jubilee bust facing left; no JEB on truncation; inscription: VICTORIA DEI GRATIA BRIT: REGINA F: D: / Lower, crowned and embellished shield-of-arms; wide date in exergue; BRITANNIARUM REGINA FID: DEF:.

Good very fine.

170.-

32 **1892 Gold Half-Sovereign No JEB High shield DISH L514 Good very fine (AGW=0.1176 oz.)**

UNITED KINGDOM. Victoria, 1837-1901.

Gold half-sovereign, 1892. London. No JEB High shield DISH L514.

The production of half-sovereigns was held back for several years to steer the public towards increased use of silver coins. The Double-florin was introduced to help in this process. However, by 1892 it stood clear that the half-sovereign was irreplaceable as it was much needed in trade and very popular with the public. The production of Double-florin coins was halted and a large number of half-sovereigns were struck: 13,680,486.

Crowned and veiled Jubilee bust facing left; no JEB on truncation; inscription: VICTORIA DEI GRATIA BRIT: REGINA F: D: / High, crowned and embellished shield-of-arms; date in exergue; BRITANNIARUM REGINA FID: DEF:.

Good very fine.

170.-

33 **1893 Gold Half-Sovereign Jubilee head Very fine (AGW=0.1176 oz.)**

UNITED KINGDOM. Victoria, 1837-1901.

Gold half-sovereign, 1893. London. Jubilee head.

In 1893 the Veiled head was introduced and the great majority of the 4.4 million output was of this type. Until recently it has not been completely clear how dramatic the split between the Jubilee and Veiled heads were. The Royal Mint annual report details that only 186,218 Jubilee head half sovereign were struck in 1893. These are presumed to all be without JEB and with the lower shield as no other variations have surfaced.

Crowned and veiled Jubilee bust facing left; no JEB on truncation; inscription: VICTORIA DEI GRATIA BRIT: REGINA F: D: / Lower, crowned and embellished shield-of-arms; date in exergue; BRITANNIARUM REGINA FID: DEF:.

Very fine.
