LIVE BIDDING BEGINS: APR 30, 2023 12:00 PM BST

Overview of auction procedures

Registration

We recommend that you register with us as early as possible if you wish to bid in our auctions and have never previously registered. This may be done via our website (www.auctions.thecoincabinet.com > Sign Up) or by email to contact@thecoincabinet.com. Alternatively, you can also register through www.the-saleroom.com. The registration process may include references, security checks, or a bidding limit placed for first time bidders. The day of the auction is an extremely busy time, and we cannot guarantee that registrations on the day will be accepted.

Bidding

Please read our full terms and conditions at [General Conditions of Sale | The Coin Cabinet Auctions](#)

Pre-Bidding via www.auctions.thecoincabinet.com

We list our sales between 1-3 weeks before the live sale. During this period, registered bidders can place advance bids, known as pre-bids. Pre-bidding is an effective method if you wish to leave bids in advance of the live sale. You can also set a maximum pre-bid that can be higher than the current high bid. Current high bids on lots can be seen by others online, but your maximum bid cannot be seen by others, nor will your bidder identity. Your pre-bidding maximum will automatically bid against other incoming bids incrementally until the maximum is reached. You will receive an email notification should you be outbid. You may raise your maximum bid, but you cannot cancel a bid. Please email us at contact@thecoincabinet.com or call **020 3808 5855** should you wish to lower your maximum bid.

Live Bidding via www.auctions.thecoincabinet.com or www.the-saleroom.com

You can bid live from your computer or mobile device through our app (available for download on Android or iOS). We provide optional live video and/or audio feed of the auctioneer, allowing the online bidder to participate as if on the auction floor.

Bidding Priority

Please note that in the event of tied top bids, priority is given to the first bid received. We prioritise pre-bidding top bids over live bidding. It is therefore possible that a lot can sell at your live bid to a pre-bidder. To avoid confusion, the auctioneer will stress to the live bidder that they tied the pre-bidder, whose bid will take priority, and to bid again if they wish.

Saleroom Notices

Should the description of a lot need to be amended after the publication of this catalogue, the amendments will appear automatically on the website. Any pre-bidders on amended lots will be notified of the amendment. The auctioneer will announce any saleroom notices at the start of the auction and refer to any notices at the time any affected lot is offered for sale.

Images

The Coin Cabinet website features high-quality colour images of every lot in this auction. Further additional photographs may be requested by email. Please note that the images online and in this catalogue are not to scale.

Buyers' Premium (BP)

The BP for this sale is 18% of the Hammer Price (+ VAT where applicable).

Prices Realised

The hammer prices of lots sold at The Coin Cabinet auctions are posted online in real time.

Payment

You will receive your invoice the next working day after auction. Payment is to be made within 14 days by bank transfer.

BYZANTINE EMPIRE. Heraclius, 610-641.

Gold solidus, ND (610-641). Constantinople.

Heraclius came to the throne on the back of a rebellion against his predecessor, Phocas in 610. As Emperor, Heraclius inherited a host of problems both domestically and abroad. Within Constantinople, his marriage to his second cousin Martina was deeply unpopular as it was considered incestuous.

Elsewhere, Heraclius inherited a war with Sassanid Persia that came to be known as the "Last Great War of Antiquity". Despite winning the war, it was so destructive that it led to the mutual exhaustion of both Empires and the rise of a new one, the early Islamic Caliphate.

Considering this instability, it is no wonder that Heraclius included his son Heraclius Constantine's portrait on the obverse of his coinage, perhaps in an attempt to secure the succession once he had passed away.

On the reverse, the "cross on steps" iconography is continued, this cross supposedly symbolised a large monumental cross erected at Golgotha, Jerusalem, by Theodosius II around 420.

No Legend. Heraclius (in centre), Heraclius Constantine (right), and Heraclonas (left) all standing facing, figure of Heraclonas is slightly smaller than the others, Heraclius has a long beard and moustache while his two sons are beardless, they each hold a globus cruciger in right hand, and wear chlamys; Heraclius and his elder son are crowned, Heraclonas wears a plain cap. / Cross potent on three steps, CONOB beneath.

28 **Byzantine Empire, Michael VII, ND (1071-1078) Gold Histamenon Nomisma, NGC XF Strike: 4/5 Surface: 4/5**

BYZANTINE EMPIRE. Michael VII, 1071-1078.

Gold histamenon nomisma, ND (1071-1078).

Emperor Michael VII had minimal interest in ruling, preferring to focus on his academic studies whilst leaving the reigns of government in the hands of his mother Eudokia, his uncle John Doukas, and his finance minister Nikephoritzes. The empire was struggling both militarily and economically at this time, so to counter this, Michael's advisors debased the coinage for a second time in forty years. This decision can't have been taken lightly as the Byzantine coinage had been a symbol of stability across the Mediterranean, leading to it being described as the "Dollar of the Middle Ages". History was not forgiving of this decision, as Michael gained the nickname "Parapinakēs" or "Minus a quarter" (in reference to the declining value of the currency) as a result.

1.00.-

Michael was overthrown in 1078, but did not meet a violent end like many of his contemporaries, he lived in seclusion as a monk for the rest of his life.

Obverse bust of Christ facing, wears tunic, himation, & nimbus cruciger, IC - XC (Greek abbreviation: Ιησοῦς Χριστός - Jesus Christ) / reverse, bearded bust facing, wears loros with six jewels on collar and crown with pendilia, labarum in right hand, globus cruciger in left hand;
