## Auction 83 - The Premium Sale

LIVE BIDDING BEGINS: MAY 28, 2023 12:00 PM BST

# Overview of auction procedures

## Registration

We recommend that you register with us as early as possible if you wish to bid in our auctions and have never previously registered. This may be done via our website ([www.auctions.thecoincabinet.com](http://www.auctions.thecoincabinet.com) > Sign Up) or by email to [contact@thecoincabinet.com](mailto:contact@thecoincabinet.com). Alternatively, you can also register through [www.the-saleroom.com](http://www.the-saleroom.com). The registration process may include references, security checks, or a bidding limit placed for first time bidders. The day of the auction is an extremely busy time, and we cannot guarantee that registrations on the day will be accepted.

## Bidding

Please read our full terms and conditions at [General Conditions of Sale | The Coin Cabinet Auctions](#)

Pre-Bidding via [www.auctions.thecoincabinet.com](http://www.auctions.thecoincabinet.com)

We list our sales between 1-3 weeks before the live sale. During this period, registered bidders can place advance bids, known as pre-bids. Pre-bidding is an effective method if you wish to leave bids in advance of the live sale. You can also set a maximum pre-bid that can be higher than the current high bid. Current high bids on lots can be seen by others online, but your maximum bid cannot be seen by others, nor will your bidder identity. Your pre-bidding maximum will automatically bid against other incoming bids incrementally until the maximum is reached. You will receive an email notification should you be outbid. You may raise your maximum bid, but you cannot cancel a bid. Please email us at [contact@thecoincabinet.com](mailto:contact@thecoincabinet.com) or call **020 3808 5855** should you wish to lower your maximum bid.

Live Bidding via [www.auctions.thecoincabinet.com](http://www.auctions.thecoincabinet.com) or [www.the-saleroom.com](http://www.the-saleroom.com)

You can bid live from your computer or mobile device through our app (available for download on Android or iOS). We provide optional live video and/or audio feed of the auctioneer, allowing the online bidder to participate as if on the auction floor.

## Bidding Priority

Please note that in the event of tied top bids, priority is given to the first bid received. We prioritise pre-bidding top bids over live bidding. It is therefore possible that a lot can sell at your live bid to a pre-bidder. To avoid confusion, the auctioneer will stress to the live bidder that they tied the pre-bidder, whose bid will take priority, and to bid again if they wish.

---

## Saleroom Notices

Should the description of a lot need to be amended after the publication of this catalogue, the amendments will appear automatically on the website. Any pre-bidders on amended lots will be notified of the amendment. The auctioneer will announce any saleroom notices at the start of the auction and refer to any notices at the time any affected lot is offered for sale.

## Images

The Coin Cabinet website features high-quality colour images of every lot in this auction. Further additional photographs may be requested by email. Please note that the images online and in this catalogue are not to scale.

## Buyers' Premium (BP)

The BP for this sale is 18% of the Hammer Price (+ VAT where applicable).

## Prices Realised

The hammer prices of lots sold at The Coin Cabinet auctions are posted online in real time.

## Payment

You will receive your invoice the next working day after auction. Payment is to be made within 14 days by bank transfer.

6 **1687 Gold 5 Guineas Elephant & Castle NGC XF 45**

ENGLAND. James II, 1685-88.

Gold 5 guineas, 1687. London. Elephant & Castle.

The 1687 Elephant and Castle Five Guinea Piece is among a class of coin that is both highly sought after and seldom offered for sale. Owning any example is a great numismatic feat, more often dreamt than lived. Despite featuring one of the most artistically rich portraits, coins of James II are somewhat of a rarity for two reasons: firstly, the brevity and unpopularity of his rule led to very few coins being saved for posterity; and, secondly, the Great Recoinage of 1696 and then a similar recoinage in 1816 saw most of his issues melted down to provide material for the new currencies. The high intrinsic value of gold coins, especially high denominations such as a five guinea piece, leaves them extremely susceptible to being melted down or repurposed throughout their journey to us. The relatively few examples we have left are fought over by collectors and investors alike. Milled Coinage of England (1950) describes the issue as 'VR' for 'very rare' and Maurice Bull (2022) awards the issue a rating of 'R' for 'rare'; although with perhaps fewer than fifty examples extant Bull's assessment is overly cautious.

20000.00.-

The Samuel King Survey of 2005 found that just 38 examples of this issue had sold over a 45-year period making this the second rarest five guinea piece of James II. SPINK noted in 2003, that this example was not just the finest they had seen of the issue, but the finest of all James II five guinea pieces they had seen. Keep in mind that SPINK, founded 1666, predates this coin.

Second laureate bust of King James II left. Legend reads IACOBVS·II·DEI·GRATIA Translation: James the Second by the Grace of God Engraver: John Roettier John Roettiers was a celebrated English engraver and medallist. Roettiers was the oldest son of Philip Roettiers, a goldsmith of Antwerp. / Crowned cruciform shields, sceptres in angles. Legend reads 88·MAG·BR·FRA·ET·HIB REX·16 Translation: King of Great Britain, France and Ireland Engraver: John Roettier John Roettiers was a celebrated English engraver and medallist. Roettiers was the oldest son of Philip Roettiers, a goldsmith of Antwerp. Edge shows regnal year in Roman words.

### 7 **1699 Gold 5 Guineas Elephant & Castle NGC AU 53**

ENGLAND. William III, 1694-1702.

Gold 5 guineas, 1699. London. Elephant & Castle.

The rarest five guinea piece of William III. Described as 'very rare' in both Milled Coinage of England (1950) and by Maurice Bull (2022), this coin is in fact extremely rare. with fewer than fifty examples extant. The Samuel King Survey of 2005 found that just 29 examples of this issue had sold over a 45-year period making this amongst the rarest of the entire five guinea series. Of the small number sold in the past five years are two examples in GVF condition which have sold at auction in excess of £55,000. An example described as EF sold for £186,000 at auction in 2018.

19 **1826 Gold 5 Pounds (5 Sovereigns) Proof PCGS PR62 DCAM**

UNITED KINGDOM. George IV, 1820-30.

Gold 5 pounds (5 sovereigns), 1826. Royal Mint. Proof.

The 1826 Proof 5 Pound is celebrated by many as one of the most impressive and beautiful designs of all British coinage. It has seen values soaring past £200,000 for the best examples and surely this will continue, considering it is considerably scarcer than the Una and the Lion 5 Pound of 1839. This is a rare occasion to obtain an excellent example with the coveted Deep Cameo designation awarded by PCGS who tends to be stricter with grading. The coin truly 'pops'; slight scuffing in places is lost among the coins superior characteristics and design elements. A premium offer for the discerning collector investor of the best of British coinage.

**32 1859 Gold Sovereign Ansell NGC AU 53**

UNITED KINGDOM. Victoria, 1837-1901.

Gold sovereign, 1859. London. Ansell.

The name 'Ansell' sovereign comes from George Frederick Ansell who worked at the mint and contributed to refining its processes. In 1859 a gold batch valued at £167,539 was deemed unfit for striking coinage due to its brittle nature. Ansell discovered a way to refine this batch without annealing and added the second hairband to Victoria's bust for easy identification, yet disguised enough to enter circulation. Ansell's coins were found to be much tougher than other sovereigns and he was awarded an official Thank You note by the Royal Mint along with £100 for his efforts. These Ansell sovereigns are some of the most sought after varieties due to the unusual story behind them.

36 **1874 Gold Sovereign Shield NGC AU 55**

UNITED KINGDOM. Victoria, 1837-1901.

Gold sovereign, 1874. London. Shield.

The 1874 London shield sovereign is one of the elusive rare dates thanks to its lower mintage and the fact that the shield sovereign was discontinued in the United Kingdom and replaced by the St. George reverse. The shield sovereign continued to be produced in Australia to service commerce with the Chinese, who did not like the idea of a dragon being slain!

57 **1872/1 M Gold Sovereign Shield; 2 over 1 NGC MS 61**

AUSTRALIA. Victoria, 1837-1901.

Gold sovereign, 1872/1 M. Melbourne. Shield; 2 over 1.

In 1871 it was decided to open a second mint in Australia, this time in Melbourne, to service the increasing demand for gold coins. From now coins would bear the same design as the British sovereigns, identified by a mint mark in the lower section of the reverse of the coin. Dies of the new designs and bearing the date 1871 were prepared in London and left Southampton via boat on 30 September 1871. However, after transferring the package to the steamer Rangoon on 1 November, the boat hit a rock on the Southwest coast of Ceylon. Despite this terrible fate all passengers and a small number of packages were saved. The 1872/1 overdate is testament to the survival of at least one of the 1871 dies as local engraver Julius Hogarth was commissioned by the Melbourne mint to create the overdate die. An extremely rare variety with a captivating story and truly historical significance.
